

REMARKS

All requested amendments to the specification have been made, save for the request to change the "Summary of the Invention" heading at page 2; here, the Applicant's files reflect that the heading is already correct (i.e., in the form requested by the Examiner), and we question whether a scanning error occurred at the USPTO. If change is nevertheless needed, please implement the change via Examiner's Amendment.

It is noted that while the Examiner accepted the drawings, the draftsman has objected to them as not including plain and legible reference characters, and has stated that corrected drawings are required. We question whether the already-submitted drawings are truly not plain and legible, but have nonetheless submitted replacement drawings herewith which are merely darkened/touched up to further clarify reference characters.

Claim 6 is amended to obviate the §112(2) rejection.

The application is now believed to be in condition for allowance. If any questions regarding the application arise, please contact the undersigned attorney. Telephone calls related to this application are welcomed and encouraged. The Commissioner is authorized to charge any fees or credit any overpayments relating to this application to deposit account number 18-2055.
